

Main concern-would enable terrorists to coordinate a plan of action more effectively onboard. No hard evidence that they don't interfere with navigational instruments. Enough stress on board, don't need more. Flight Attendants would have to police cell phone use-hard to maintain a safe, secure environment and conduct emergency evacs. Please do not allow this!!! As a flight attendant for a major airline, you are putting me and my fellow workers as well as all passengers at much risk! Thank you for listening.
